

Pluto's Pursuit

Experience the legacy of Disney-style team building through Pluto's Pursuit, a program first designed as an activity for Disney Cast Members (employees). This unique program is now available for your team to experience at any Disney Destination. Featuring activities available only through *Disney Institute*, this program encourages groups to focus on critical team success factors such as collaboration, leadership and trust in an exciting environment of discovery.

The Team - Each team is made up of 4-8 people.

The Set Up - To prepare for the "hunt", participants are introduced to the dynamics of a successful team. After a quick warm-up activity, the group is given final instructions and sent on their way.

The Pursuit - The various teams are "unleashed" into the surrounding area to compete in a scavenger hunt. This is a unique challenge that brings into play the elements of successful teamwork using the resources of various areas at a Disney Destination.

Scoring and Debrief - The teams are scored on their ability to locate all the items required during the scavenger hunt. The entire group debriefs the activity and what was learned about effective teamwork. All participants receive a collectors' pin, and the team with the highest score receives an additional treat. Meeting space is required for the introduction at the beginning of the program and debriefing at the end of the program.

When opening and closing sessions take place at a Resort venue, please add 30 minutes to the program length for travel time.
